NEW RULERS TO BREAK FOE TREATY

Loyal Russian Government Plans to Annihilate Brest-Litovsk Treaty.

WILL RESTORE PUBLIC ORDER

New Government is Expected to Bring Speedily Some Measure or Order Out of the Chaos in Russia.

Washington—Aims of the new Russian provisional government formed at the Pan-Russian convention at Ufa last month include liberation of Russia from the power of the Bolsheviks, peace, restoration of treaties with the Allied nations and continuation of the war against the German coalition.

These aims along with those affecting the internal affairs of Russia are outlined along with the action constituting the supreme power of Russia which was received by the Russian embassy from the provisional government.

The act was approved by the convention, which was composed of representatives of all governments and parties in Russia except the Bolsheviks and the forces which first opposed the constituent assembly, which was overthrown by the Bolsheviks.

The new government is expected speedily to bring some measure or order out of the chaos in Russia and the Allied governments are understood to hope that it eventually will become one with which they may deal.

In its interior policy the provisional government announces these aims:

Erection of a single and powerful Russian army beyond the influence of political parties and subordinate, through its military chief, to the Russian provisional government.

Re-establishment in the liberated parts of Russia of democratic municipalities and "zemstvo" actually guaranteeing general security and public order.

Development of productive forces of the country with the aid of private capital, Russian as well as foreign, and of personal initiative.

Legal regulation of commerce and industry.

Development of labor legislation, protection of labor and regulation of the conditions of employment and discharge of workmen.

U. S. SENDS NOTE TO MEXICO

This Government Will Not Tolerate Cut in Oil Supply.

Washington.—The United States government evidently has decided that the time has arrived for plain talk concerning Mexico's attempted confiscation of American-owned oil fields in that country.

The department of commerce, with sanction of the state department, made a clear and concise official resume of the existing situation. The document contains a complete refutation of Mexico's defense of its strong-arm procedure and a plain definition of this government's position.

The underlying purpose is to lay before the American public the exact state of affairs arising from Mexico's avowed intention of changing more than \$200,000,000 worth of American-owned oil properties into a form of leased concessions subject to royalties to the Mexican government, preparatory to any further steps by the United States which future developments may demand.

Moreover, it is made plain that this government, in being compelled to turn to Mexico for oil in the present emergency, cannot and will not acquiesce in any procedure aimed to deprive American citizens of their property and vested rights.

Notice is in effect served on Mexico.

"HEARTS OF THE WORLD."

COMING TO GRAYLING OPERA HOUSE OCTOBER 17-18.

D. W. Griffith's Supreme Triumph "Hearts of the World."

"Hearts of the World," the supreme triumph of D. W. Griffith's, to be presented at the Opera House, Oct. 17 and 18th, inaugurates a new era in the realm of the screen drama. Here, with the great war as a background, Mr. Griffith has filmed a simple little love story, old as ages yet ever new. "Hearts of the World" has proven the latest sensation in the screen world. Mr. Griffith realized that the public which became enthusiastic over the "Birth of a Nation" and "Intolerance" would expect something big from him in this latest picture, and therefore instead of trying to out-do himself in staging gigantic battle scenes, he used the Great War only as a background for the filming of a simple and attractive story of tremendous human interest.

"Hearts of the World" shows the happy, peaceful life of the people of a small village before the grim horror, war reared its ugly head over the horizon. The causes that led up to the war are shown; the meeting of the English Parliament on the eventful night when the vote was cast for war; the session of the French Senate voting upon the Declaration of War; the session of the cabinet awaiting the fatal hour when the ultimatum to Germany would expire. These scenes come as a prelude; then the great drama begins when the German hordes enter France.

In taking the battle pictures for "Hearts of the World," Mr. Griffith had the assistance and co-operation of the British War office. It is the opinion of all who have seen "Hearts of the World" that Mr. Griffith has outdone his own best achievements and has established a new artistic record which it will take years and years for someone else to equal, if indeed such a thing is possible.

War Exhibit Train to Visit Grayling Oct. 15 at 7:15 A. M.

Michigan people are to have the war brot to their very doors. War exhibit trains which have been touring various parts of the Seventh Federal reserve district are soon to be viewed in nearly every corner of Michigan.

The first of the Michigan war trains left Chicago yesterday, Wednesday and will make numerous stops daily

until its return to Chicago Oct. 19, the closing day of the Liberty Loan campaign. The second train will leave Chicago for another part of the Michigan tour October 10 and end its itinerary October 18.

Both trains consist of three flat cars on which are carried great guns, captured warplanes, machine guns, depth bombs and the heavier exhibits about which intense interest centers. A box car contains the small exhibits such as German saddle blankets, belts, rifles, hand grenades, helmets, field kits and weapons.

Ten sailors and soldiers accompany each train as a guard and to explain questions of spectators. All cars are camouflaged to demonstrate this practice on sea and battlefields.

The exhibit consists of the most interesting things shown at the government's great war exposition at Chicago in September. In addition there are numerous articles such as heavy shells which have been received by Ben F. McCutcheon, publicity director of the district, since the close of the Chicago show.

At each stop the exhibit trains will go on siding and the public is free to view the war relics during the time allotted the train to stop. The train will visit Grayling next Tuesday Oct. 15 at 7:15 a. m. and remain for two hours when they will leave for Roscommon, where they will remain until noon.

Switchmen's Union of North America at Grayling, Michigan.

The following officers were duly elected and installed: W. J. McNeven President, A. J. Kelsey, Vice President, P. W. Christensen, Secretary, C. R. Adams, Treasurer, T. Brisbois, Chaplain, W. B. Jamison, B. R. Preston and J. G. Smith, Board of Directors, H. McDonald, Conductor and B. B. DeLamater, Journal Agent.

The lodge will hold their meetings on the first and third Tuesday evenings of each month in the G. A. R. hall.

Mr. R. Hanson, the pioneer and father of Grayling and the grand daddy of the present generation, was extended honor of naming the lodge, Mr. Hanson deeply appreciated the honor that was extended to him and named the lodge, "Shoppenagon Cork Pine." Mr. Hanson's suggestion was adopted unanimously by the members and prospective members of Grayling.

Therefore, the lodge in Grayling will be known and hailed as Shoppenagon Cork Pine Lodge, Number 122 of the Switchmen's Union of North America.

The Switchmen's Union was organized October 23, 1894 and on May 20, 1901, became incorporated under the laws of the State of New York to carry on an Insurance department in connection with the Union.

Since the incorporation of the Insurance department, we have paid in death and total disability, upwards of two million dollars and have paid local sick and accident benefits approximating a million dollars, a benevolence very needful in a calling as hazardous as that of a switchman.

Mr. Trost and Mr. Manley extend a vote of thanks to the members and families, also to the citizens of Grayling for the kind interest and hospitality accorded them while in the city and extend an invitation to the switchmen employed by the DuPont corporation, also to the switchmen of Cheboygan and Mackinaw to join the lodge in Grayling and thereby assist to unite and promote the general welfare, and advance the interests, social, moral and intellectual, of its members and their respective communities, by kindly bearing with each other's weaknesses, aiding with their counsel, distressed or erring brothers and citizens, and to exercise at all times its beneficial influence in the interests of right and justice.

GIVES UP BUSINESS TO ENTER SERVICE

MAYOR T. W. HANSON WILL OFFER SERVICES TO THE GOVERNMENT.

Bid His Grayling Friends Farewell Monday and is Now in Washington.

There was considerable excitement around the city Saturday last when Mayor T. W. Hanson said that he had given up his business interests and home and would offer his services to the government for the duration of the war.

Mr. Hanson was in the draft and he at several times stated that he would not ask for exemption, and that when the time came he would be ready to go. He finally decided not to wait and made arrangements with his father, Rasmus Hanson, to look after his local interests and, bidding farewell to his relatives and friends, he left here Monday night for Battle Creek on business in connection with the construction of the community house that is being built there at a cost of a quarter of a million dollars, he being the chairman of the construction committee. He intended to be in Washington Thursday and there to offer his services for the duration of the war for any duty that the government might desire him to do.

Mr. Hanson is not only chairman of the county war board, an organization that has been highly efficient, and much credit for its successes is due to the generalship of the chairman, but since the war broke out he has given a large amount of his time and energy to the work of the war, not only here at home but has been called many times to other communities to deliver his message to the people. He is an able talker and has a way that is convincing and of strong influence.

Mayor Hanson has wanted for several months to enter the service but because of the advanced age of his father and of their large property interests he said that he did not feel like leaving, however last week he expressed his desire to his father and the latter in his well known patriotic way told his son that he would be glad if he would actively enter the service of his country.

The call of duty to his country was strong and the acquiesce of the senior Mr. Hanson made it easy for "T" to make the start. He turned over his home and interests in the R. Hanson & Sons' lumber mill to his father, who will have a general supervision over these properties, and the mill be continued with the same efficient crew that has been in charge for many years past.

It is the plan of Mrs. Hanson and little daughter Virginia to take up a residence within a reasonably near distance to the place Mr. Hanson may be located, possibly somewhere in the state of New York, so that the family may be together occasionally.

Mr. Hanson says that he has no idea of what branch of the service he may be able to get into or what may be demanded of him only he hopes to be placed where he can do the greatest good. The service that he has already rendered and his splendid ability is already well known to the National war board and without a doubt his aid will be as willingly accepted as it is offered.

In their leaving, Grayling is losing one of its leading families. Both Mr. and Mrs. Hanson have been leaders in social and public affairs. The latter has rendered excellent service in the Red Cross and other war work branches. Both have ever had in mind the comfort and welfare of others as well as of themselves. When duties came to them they seemed to accept them as privileges and no matter how menial they may have been they were always done willingly. We are indeed sorry to have this family leave our community for they will be deeply missed. The service to our flag and for what it stands is of greater importance than anything else that may come up in our lives at this time and the entrance of Mr. Hanson into the service, whatever it may be, is appreciated by the people here who can serve best by remaining at home.

MR. AND MRS. THOMAS CASSIDY
CELEBRATE SILVER AN-
NIVERSARY.

Just twenty-five years ago, Thurs-
day morning, Oct. 3, bright and early
Miss Isabelle Boyce became the happy
bride and helpmate of Thomas Cassi-
dy. Fr. Magnan of St. Mary's church
Cheboygan was the officiating clergy-
man and it was at St. Mary's church
Cheboygan that they spoke their vows.

The Cassidy children of whom there
are six at home at the approach of the
glad day, began making preparations
for a celebration unknown to their
parents. They accordingly arranged
to hold the affair at the home of Mr.
Cassidy's sister, Mrs. Lewis Kessler,
and so they invited a number of
friends to be at the Kessler home
that evening. In the mean time Mr.
and Mrs. Kessler had invited the
bride and groom to come to their
home on the evening of their anniver-
sary. They first went to the moving
picture show and proceeded to the
Kessler home. The guests were all
awaiting their coming and indeed
gave them a complete surprise when
they made their appearance. They
had never imagined such an affair.

The Kessler home was decorated
with maple leaves of the autumn hues
and was very pretty. Progressive
pedro was enjoyed by the guests.
Mrs. Alex Lagrow winning the first
prize and Mrs. C. M. Hewitt the con-
solation. There were about twenty-
five present and during the evening
the happy couple were presented with
some beautiful gifts of silver, includ-
ing a handsome chest of silver from
their children.

A two course luncheon was served
and in the center of the table around
which the guests sat, was a wedding
cake trimmed with silver leaves and
also other silver trimmings adorned
the table.

It was a cleverly planned affair and
one that Mr. and Mrs. Cassidy will
never forget.

County Agents Column.

The delegates elected in the vari-
ous communities in Roscommon county
for the purpose of attending a
meeting on October 1st at Roscommon
to complete the organization of a
County Farm bureau met on that date
and organized as follows.

Executive Committee.

President, Charles R. Chase, Ros-
common, Mich.

Vice-President, David Martin, Kenos-
Michigan.

Secretary, M. W. McClure, Roscom-
mon, Michigan.

Treasurer Mrs. Alsina King, Hough-
ton Lake, Michigan.

Members, R. N. Robinson, Hough-
ton Lake, Miss Elsie Hollowell, Coy;
T. A. Bailey, Gladwin Mich.; R. S. Mrs.
Elizabeth DeWitt, Marquette, Michigan;
Henry Hilborn, St. Helen, Michigan.

Inasmuch as Crawford and Roscom-
mon Counties are working under the
same County Agent and their agricul-
tural problems and conditions are so
nearly alike it was decided after lis-
tening to the county agent give an ex-
position of the Agricultural program
adopted by Crawford county, to adopt
the same program.

The President appointed Miss Elsie
Hollowell to take charge of the matter
of a Woman's rest room in Roscom-
mon with a view that women coming
to town might have a place to rest
and refresh themselves.

The County Agent was requested
to produce a joint meeting of the ex-
ecutive committees and agricultural
council of both counties at an early
date.

The spirit displayed by the Com-
munity meeting at Eldorado on Sept.
28th is commendable. The County
agent had been excused in order that
he might hold a Liberty Loan meeting
at Michelson. That was the night
this little community was to pick out
its parts of the County Agricultural
program. Did it let the meeting fizzle
out because the County Agent
could not be there? Not on your
tintype. They took hold of the mat-
ter of Standardization of varieties
with the result that Eldorado is look-
ing after Rural Russett potato seed,
which will in all probability be the
potato raised in that community next
year. If the community puts thru
just this one project during the com-
ing year it will have improved the
crops of Eldorado community.

The Community meeting held at
Beaver Creek on Wednesday last was
apparently forgotten by the Com-
munity officers. However a goodly
number of people in the community
who had not been to the previous
meeting gathered. That was the
meeting to determine the Commu-
nity's part of the County program, but
owing to the fact that nearly all who
were present had not heard about
what had been done the County agent
explained. Mr. Jackson brot in some
potatoes which showed a typical case
of Black Scurf. It is safe to say that
no potatoes affected with this disease
will be planted by any of the per-
sons who were present, next season.
The meeting adjourned upon call of
the Community chairman.

The Community meeting held at
Wellington last Friday evening was
a well attended and interesting affair.
The school was nearly full and more
members signed up. Two projects
were taken up viz: Liming and stan-
dardization of potatoes. The County
Agent was requested to get the price
on Limestone delivered at Horrigan
switch, also to get in touch with good
Rural Russett seed potatoes.

A joint meeting of the Executive
committees and the Agricultural
councils of Crawford and Roscommon
counties will be held at the Roscom-
mon hotel in Roscommon on Tuesday
evening, October 15 at 8:00 o'clock
p. m. The members of the boards of
supervisors of both counties are in-
vited to be present. The county ag-
ent is inviting the members of these
bodies to a luncheon to be furnished
after the joint meeting at the same
place. Efforts are being made to
have the Extension director or
State leader here. This meeting is
to be held in order that the various
officers may get better acquainted
with their duties and with each other
and to give these two young bureaus
a good send off for their next year's
work.

Financing Fighters by Stinting Your
Self Makes Heroes of the
Home Folks.

Heroes are a comparative rarity at
the front. There are so many of
them that they escape the notice pro-
perly given to the prodigy. Converse-
ly, there are few cowards. The sol-
diers are charitable. They understand
well enough that any man may be so
far below par for a second that his
legs will not obey his will. Weakness
due to the strain of brave resistance
is one of the terrible chances of fight-
ing. Hence the bravest man generally
says the very least about those who
are accused of cowardice.

The financing and support of a
great war produces just as many her-
oes as the charge on the fighting line
and they are more often overlooked.
Unfortunately, too, the civilian part
of the war produces cowardice—cow-
ardice of such a mean kind that it can-
not be forgiven. Such cowardice, for
example, as refusing to cut down
sugar-eating, gasoline consumption,
etc., for the good of the service. It
is a form of cowardice because it im-
plies fear of self-denial—dread of sac-
rifice.

"I will not make an easy sacrifice,"
said Captain Cochran. "God, country,
family—that is the order of my sac-
rifice!" And he died at Verdun, with
a platoon of decorations.

A little of that spirit will readily
overcome the cowardice of those who
run away from their plain duty of buy-
ing Liberty Bonds. Imagine Captain
Cochran in your place. Would he not
say "Buying one bond is too easy a
sacrifice. I will undergo privation—
yes, physical privation! Set me down
for five or ten bonds!"

WOUNDED MICHIGAN

THOSE IN NEW YORK GIVEN
COMFORT THROUGH STATE
WAR BOARD.

HOW PEOPLE CAN HELP

Efforts Being Made to Get in Touch
With Every Michigan Man Who
Returns Sick or Wounded.

Lansing—In response to a rather
urgent message from the Red Cross
asking him to come at once to one
of the government hospitals in New
York city, Col. Roy C. Vandercook,
secretary of the Michigan war pre-
paredness board, who was in New
York city last week assisting in open-
ing the branch office for which relief
work among Michigan sick and
wounded will be directed, made a
flying trip across the city and was
ushered into a ward filled with wound-
ed soldiers.

One of the nurses directed Col.
Vandercook to the cot of a young
fellow she addressed as Sergeant
Morheart and introduced Vandercook
as a representative of the Michigan
war board.

"Perhaps you think I'm crazy, ask-
ing you to come way over here to see
a total stranger," was Morheart's
first statement after Vandercook's in-
roduction. "I have been in this hos-
pital six weeks and although I have
received the best of care I haven't
seen a single person from the old
home state. I read in the morning pa-
per that Michigan headquarters had
opened here and I just wanted to talk
with a man from home. The Red Cross
people are wonderful, but after a fel-
low has been away for months any
one from home looks like a real
friend."

Praises Boys in France.

Col. Vandercook learned Sergeant
E. J. Morheart was a native of Ann
Arbor. The young fellow had lost one
leg and the other limb had been badly
shattered by machine gunfire, but he
was cheerful and had only words of
praise for the Michigan men in action
in France.

The Michigan bureau in New York
city is located at 36 West Fourth
street, directly across from the pub-
lic library. Stuart F. Perry of Adrian
is in charge of the office at present.
Every day Perry receives a list show-
ing the hospital location of every re-
turned Michigan soldier. An effort is
being made to get in touch with
every Michigan man who returns sick
or wounded.

Col. Vandercook suggests that any
person who wishes to locate a rela-
tive or friend in one of the govern-
ment hospitals should write to the
New York office of the war prepared-
ness board. Perry will find out where
the hospital authorities will permit
anyone to see the man in question
and give all information available.
This may save useless trips to New
York as sometimes men who are re-
turned in hospital ships are sent to
points outside New York city.

The New York office, through the
efforts of Mrs. John Bush, Mrs. M.
Kitsinger and Mrs. Stanley Otis
former Michigan women, has been
fixed up in a most attractive man-
ner. Pictures of Michigan buildings and
scenes from various cities adorn the
walls. Every effort is being made to
bring Michigan atmosphere to the
New York quarters. Secretaries of the
various chambers of commerce in
Michigan have been asked to send
pictures from their localities.

Banquet is Given.

The place has been fitted out with
a cardroom and smoking room where
men en route to France may enjoy
themselves in New York. Last Satur-
day night 150 men from Michigan
were banqueted in the Michigan
headquarters.

Mrs. Bush and Mrs. Otis, former-
ly of Lansing, and Mrs. Kitsinger, for-
merly of Marshall, have spent con-
siderable time cutting stories from
magazines and pasting them on card-
board for the wounded soldiers. Many
of the men are so weak they cannot
hold a book or magazine, but they
can support a light piece of card-
board. Pictures from comic supple-
ments arranged in a similar manner
afford the men great amusement. As
soon as the organization is completed
in New York Michigan men will be
asked to fix up some magazine
stories and send them to New York
office. Gifts of jellies and other deli-
cacies also will be accepted.

"Labor in this country today is for
the war, and is giving in full measure
to the nation's cause. We are a na-
tion of wage earners. And the wel-
fare of these men must have that con-
sideration that guarantees to them
that to which in all fairness they are
entitled. We must have just remedial
legislation for the betterment of this
great mass of our population at all
times, not only because it is their
due, but also that by justice always
we can prevent the insidious influence
of the criminal elements of the I. W.
W. from taking hold in the ranks of
real labor."—Will H. Hays, in Grand
Rapids Convention Address.

A BIT OF HOME
WITHIN THE CAMP

A long, low building of frame con-
struction, attractively planned, with
wide verandas and a homelike aspect.
Outside are hanging the flags—the
Stars and Stripes, which must soon
be taken in as it is nearly sunset, and
another flag bearing a little triangle
of blue and the letters Y. W. C. A.
It is a fall afternoon and the air is a
bit sharp. Through the front windows
of the house the woman approaching
up the walk can see the cheerful glow
of an open fireplace. There is the
sound of a piano and some one is
singing.

The woman, who is slight and young
and tired-looking, puts her heavy suit-
case down on the walk and shifts the
bag she is carrying to the other arm.
She listens a minute, then picks up the
luggage and walks bravely up to the
front door. Some one has heard her
coming and is there to meet her. Some
one always is in places like this. The
door is thrown open and a kind wom-
an's voice says: "Oh, do come in and
rest. Let me take the baby." The
baby is passed over and the stranger,
worn from a long journey, tired and
sad, is given the welcome which only
the Y. W. C. A. hostesses know how to
give.

She explains that she has come to
see John before he leaves for the
front. She has been saving her money
for traveling expenses, and has come
to surprise him. John has never seen
the baby, and now maybe he never
will, for she has discovered that John
has just left on a two days' furlough
to surprise her. Before she could get
a train back to her home John's fur-
lough will have expired and he will be
on his way back to camp. The little
mother does not know how to meet the
situation and tears of fatigue and dis-
appointment begin to flow.

"Well, that's too bad," says the sym-
pathetic Y. W. C. A. worker. "But
cheer up. You can just stay here for
a couple of days. We'll send a wire
to John at the first place his train
stops and tell him to take the next
train back. He can enjoy his furlough
here."

This is done and the little family
has a glorious day of it.

The Young Women's Christian asso-
ciation has established 92 hostess
houses of this character for American
soldiers and sailors and their families.
In this brief bulletin of news lies one
of the most potent factors in the win-
ning of this war. Our boys are fight-
ing for their homes. The Y. W. C. A.
with its hostess work in this country
and in France is helping to keep the
ideal of American home life con-
stantly before the men who are pro-
tecting it. These men had to go away
from their individual homes, but there
is a home which follows them—a place
where they can go when they are off
duty and meet their families and rest.

There is a room in every Y. W. C. A.
hostess house with a real fireplace in
it and a domestic hearth. There are
chairs with cushions on them; the
china is not of the iron-bound bucket
variety necessary in camps; and best
of all, the boys say, there are nice
women to talk to. No boy in camp
would hesitate to ask his mother or
sister or the girl he thinks most of to
meet him at a Y. W. C. A. house, for
he knows that the women she will see
there are of the right kind. The very
fact that it is known that there is a
real, homey place near each camp au-
thorized by the war department and
presided over by dignified and refined
women, has served very largely to dis-
courage the other type of woman and
keep her away from the men she for-
merly preyed upon.

The Y. W. C. A. houses are not es-
tablished with any view to marking
class lines, however, although many of
the hostesses who assist live lives of
great ease and luxury before the
war. Democracy rules at the sign of
the Little Blue Triangle.

A story is told of a great merchant's
wife whose individual fortune amounts
to the million mark. This lady is a
member of one of the Y. W. C. A. com-
mittees, and on one occasion she was
helping in the cafeteria of a hostess
house at the Great Lakes naval train-
ing station. A little shopgirl who had
a "day off" from her work in the base-
ment of the great store owned by the
Y. W. C. A. worker's husband, and who
had come to see her sailor brother, was
in a State street hurry for service.
She sharply ordered the merchant's
wife to "look alive with these forks,
girlie."

The lady addressed as "girlie" quite
humbly saw to it that the pile of forks
was replenished. Then she went over
and talked to the girl, helped her to
locate her brother and sent her away
happy. The shopgirl never knew that
she had been talking to her employer's
wife.

There are two hostess houses at the
Great Lakes station, and it is a won-
derful sight to see the crowds of wom-
en relatives and friends of the sailors
who throng to them on the Wednesday
drill afternoons. From 1,000 to 3,000
persons a day are cared for in the
cafeterias, and the nurseries are full
of sailor babies, whose mothers can
leave them there safely while they are
on the grounds.

In addition to the hostess house
work in this country the Y. W. C. A.
has established the famous Hotel Pe-
trograd in Paris as a center for tran-
sient women war workers overseas.
There are also many foyers or recrea-
tion centers in France where girl na-
tional workers, signal corps girls and
others are refreshed and brightened
by association with the play leaders
of the Y. W. C. A. who have intro-
duced American gymnasium classes
into French life.

A Billious Attack.

When you have a billious attack
your liver fails to perform its function.
You become constipated. The food
you eat ferments in your stomach in-
stead of digesting. This inflames the
stomach and causes nausea, vomiting
and a terrible headache. Take three
of Chamberlain's Tablets. They will
tone up your liver, clean out your
stomach and you will soon be as well
as ever. They only cost a quarter.

BUYING BONDS IS THRIFT

Famous French Statesman Says Thrift
Is Virtue of the People.

Deputy Justin Godart, in a recent
speech on "The American Crusade,"
said: "Thrift, that virtue so charac-
teristically French, so domestic, so
modest, so sterling—thrift is the vir-
tue which, during the terrible trials of
the war, has not failed to yield us,
according to our ever-increasing neces-
sities, unsuspected means and re-
sources."

We must place it in the first rank
of our elements of resistance. It has
been the part of the lowly in the eco-
nomic outlay. Thrift! It is the vir-
tue of the people, just as the Pollu is
the people's soldier, and like the Pollu
it enabled France to withstand the as-
saults of the barbarians."

Out of the hardships of the war
America is recovering the ancestral
virtue of thrift. That alone will
abundantly repay us as a people for
all the sacrifices we are compelled to
undergo.

At the actual minute there is no
duty for Americans that can compare
with the buying of Fourth Liberty
bonds. Thrift is good for the country;
our first we must make sure that we
have a country. We must beat the
German feudalists. Never mind what
you did on the early loans. That
money is spent—for war preparation.
The Fourth Loan Is for Fighting.

WHAT THE WAR IS COSTING

Total Outlay for Two Years Ending
June 30, 1919, Is Estimated at
\$36,696,702,470.

A recent article in The Outlook
takes the position that "recoverable
productive assets" amounting to
\$16,000,000,000 for the benefit of the
American people stand against war
loans at present authorized, amounting
to \$24,000,000,000. It is estimated that
the total outlay for the two years end-
ing June 30, 1919, will be \$36,696,702-
470.

The "recoverable assets" include
\$10,000,000,000 authorized for loans to
the allies; \$2,750,000,000 for ships and
shipyards; \$1,000,000,000 for railways
in France; army warehouses, \$228,000-
000; domestic railways, financial and
other purposes, \$1,050,000,000; and va-
rious permanent investments, \$972-
000,000.

These conclusions, reached by Mr.
T. H. Price, are sustained by the rea-
soning of Sir George Paish and many
other European economists. It is com-
monly assumed that the "gross cost
of war" means all economic losses,
loss of trade, destruction of property,
dissipation of materials, excess con-
sumption of commodities and the in-
cidental waste of "utility," may be dis-
counted about half to arrive at the
"true net cost." On this basis the
London Statist estimates that the real
economic loss to all the belligerent na-
tions will not exceed \$167,000,000,000
to the end of 1917. Since then, of
course, there has been a tremendous
destruction which it is impossible at
the moment to approximate.

Godmother to a Liberty Bond.

"My Bonny tank, No. 66,644 has
gone through the enemy lines three
times, has dug deep holes in the Ger-
man infantry waves and destroyed
many machine guns. My tank is still
going and we hope for more victories.
But our machine is not yet baptized.
It needs a name. Who wants to be
godmother?"

This letter was written by the com-
mander of artillery section 316 on the
Marne front during the recent victory.
Here's your chance. But there is a
better chance nearer home:

REGISTRATION OF WAR BONDS IS URGED BY LOAN OFFICIALS

Important Information on Liberty Bonds Given Out by Government Officials.

Important information concerning the registration of Liberty Loan bonds, as given out by the bond department of the Federal Reserve Bank of Chicago contains the following quotation from a letter from the treasury department:

"With reference to accepting subscriptions for bonds to be registered in the names of persons giving only initials rather than the full name, I have to say that it is the intent of the department, not for its own sake, but for the sake of the holders of registered bonds, to have them registered in such manner as to enable the said holders, or their legal representatives, to dispose of them in the simplest and readiest manner. Bonds issued to wom-

en under their initials, or under the initials of their husbands, are not readily transferable in case of the death of the holder.

"Though letters of administration would be issued in the legal name of the deceased, and the bonds would be inscribed in her name, under her initials, or those of her husband, as the case might be, the letters of administration and the bonds would not agree as to the name, and therefore the administrator of Mrs. Sarah A. Smith, say, would have to prove that she and Mrs. Thomas W. Smith (or Mrs. S. Smith) were one and the same person. It is to avoid troubles of this character that the department has insisted on receiving the legal name of persons subscribing for registered bonds.

"Of course, the department cannot refuse to issue bonds under initials if the parties interested insist upon it, but it is requested that you, in all cases where it is possible, insist on receiving the full names of persons subscribing for registered bonds."

RED CROSS WORK AMONG REFUGEES

HUNDREDS OF THOUSANDS OF UNFORTUNATES IN ITALY WELL CARED FOR.

SCENE IN BOLOGNA STATION.

Allen Enemy Females Put Under the Permit Rules—Great Plans for the Further Relief of Belgians and French.

(From Committee on Public Information.)
Washington.—How the hundreds of thousands of unfortunates driven from their homes in the course of the Austrian invasions of Italy were safely piloted to their destinations is related in a report received from an American Red Cross worker who has been looking after refugees in Bologna.

"An arrival of emigrants from Europe would give but a faint idea of an exodus of refugees," the report says. "Many of them are taking their first journey on a railway. In most cases it is impossible to make themselves understood. They pour into the Bologna station, dragging behind them unwieldy packages, flasks, bottles, babies, sewing machines, hens (refugees have cats, dogs, canaries, bullfinches, pigeons, turkeys)—in fact, our rest home has seen every variety of winged and four-footed life stock. There they stand, stupefied by the noise and confusion of the arrival, utterly unable to move, while maybe their train is about to depart.

"However, we are there, looking for just such as they. The willing soldiers who are assigned to help the Red Cross take their difficult bundles, the huge sacks and a few of the babies. We take the eldest child, leading the way as a sort of decoy; and away we go, in and out of passenger trains, troop trains (no bridges or subways here), until we arrive at the train desired, hidden away behind all these obstacles, absolutely unobtainable if not for our intervention.

"The train is jammed. They always are. Everyone on board cries to us there is not another inch of room. We pay no attention to them. Our fattest soldier enters a car and opens a passage for the family. When all the members and their endless belongings are squeezed in we go back and pick up another family."

Seven thousand men at Kelly field, division of military aeronautics, last month saved articles which in other times would be regarded as junk, but which brought the government \$3,300. Some of this refuse was old paper, oil barrels, straw, bags, garbage, tin cans and metals.

In addition, great piles of old clothing, tents, motorcycle parts, airplane fittings, engine parts, rubber tires and the like were saved. "Don't throw it away" is the slogan which is prompting the accumulation and sale of masses of materials at this and other camps.

The fruit and milk cans that the "kitchen police" smash every day, for example, bring considerable money to the government. They sell at \$16 a ton. Kelly field ships them by the carload to copper refineries, where they are thrown into furnaces and serve to collect millions of molecules of copper that would otherwise be washed away. The cans are then heated, the copper separated from the tin and marketed.

How to conserve clothing and shoes, lumber and equipment is taught the soldier, who is not slow to see the advantage in dollars to himself as well as to the government. It is intended soon to open shoe repair shops and tailor shops at Kelly field to make the work of reclamation of still greater value to the government.

Midnight of October 5, 1918, has been fixed by the United States attorney general as the time when regulations establishing a one-mile prohibited area around federal or state forts, camps, arsenals, aircraft stations, government or naval vessels, navy yards, factories or workshops for the manufacture of munitions of war, etc., shall be effective as to German alien females. This date is fixed by the attorney general under authority granted to him in the president's proclamation of April 19, 1918.

The effect of the attorney general's act in fixing this date is to make it unlawful for any German alien female of fourteen years of age and upwards to be found within one-half mile of any of the places mentioned (except on public carriers) without a permit from the United States marshal. Permits to reside in or to enter the prohibited area must be obtained, and applications for these must be made in the same manner as for similar permits in the case of German alien enemy males.

Salt producers have agreed with the United States food administration to pack their product in only a few standard sacks and when packed in wood the barrels where possible will be hooped with wood instead of steel. When packed in cotton, salt will here-

after be obtainable in only five, ten and twenty-five pound or larger sacks. Proportionately, a one-pound sack will contain 50 per cent more cotton than a five-pound sack. The new arrangement is expected to save large quantities of cotton and steel and reduce the drain on labor.

Plans for the relief of the 10,000,000 Belgians and French people now within territory occupied by the Germans contemplate the shipment in the next twelve months of 42,500,000 bushels of wheat, 2,200,000 bushels of beans, 8,000,000 bushels of rice, 26,400,000 pounds of corned beef, 277,200,000 pounds of pork products, 68,000,000 pounds of soap, 28,000,000 pounds of coffee, 18,000,000 pounds of cocoa, 55,000,000 pounds of condensed milk and 40,000,000 pounds of sugar.

This amount of food, together with the native produce, gives an average ration of about 2,000 calories—about half the consumption of the American people.

This program is estimated to cost during the twelve months, for purchase and transportation, approximately \$280,000,000. The finance has been arranged on the basis of advance to be made by loans from the United States to the Belgian and French governments in amounts sufficient to pay for the material purchased in the United States. The British and French governments are advancing in Europe the sums necessary to meet the expenditures made there for shipping and for foodstuffs coming from other quarters than the United States.

In addition to the fleet controlled by the relief commission the United States and allied governments are placing at its disposal 200,000 tons of shipping recently obtained from the Swedish government for nonwar zone purposes. The commission announces that besides the food which it intends furnishing these stricken people there will be needed for them about 20,000 tons of clothing and cloth. Through the co-operation of the Red Cross about 5,000 tons of these supplies have been collected and the work of collection still continues.

In its fourth installment of its report the war council of the American Red Cross announces that its expenditures in France for work among the civilian population since the war began, coupled with appropriations for the supply, transportation, women's hospital service and other bureaus, will total more than \$70,000,000.

"Expenditures in France to July 1, 1918, totaled \$38,613,682.73, of which \$21,399,682.06 was appropriated for relief work among refugees, reclaiming devastated areas, the fight against typhus, beriberi, cholera, and other diseases, and other expenses that have to do with the civilian population," the report states.

"The demands for the next six months for the same purposes are \$34,582,827.57."

The total of the expenditures for relief work and the reconstruction of devastated villages and the care of refugees from the devastated areas was \$5,557,605.75. The third largest item was for a campaign against tuberculosis. This work absorbed \$2,147,827.

For the care of children in France up to July 1 the expenditure was \$1,149,129.70. The cost of relieving refugees will be financed from an appropriation of \$6,212,280.70, which has been set aside for the purpose.

Retail prices of food as reported to the United States bureau of labor statistics for August, 1918, and just published, show for the country as a whole an increase of 2 per cent for all articles combined, as compared with July, 1918.

The increase in price of all articles of food combined in August this year, compared with the same month of 1917, was 15 per cent. In this period hens showed the greatest advance—38 per cent. Chuck roast increased 20 per cent, round steak 20 per cent, rib roast 28 per cent, sirloin steak, plate-boning beef and bacon 26 per cent each. Rice was 26 per cent higher than a year ago. Beans, flour, sugar, bread and coffee were cheaper than in August, 1917.

For the five year period (August 15, 1913, to August 15, 1918) all food combined showed increase in price of 70 per cent. All the 17 articles for which prices were obtained for five years showed an increase of 52 per cent and more. Four articles increased 100 per cent. They were meat, 127 per cent; lard and lard, 106 per cent each, and potatoes 105 per cent.

With nearly all the stars of the game in the army and navy, football will be one of the most popular sports in the various training camps this autumn, if reports to the war and navy departments' commission on training camp activities are dependable. Many colleges and preparatory schools have announced that football will be abandoned so far as academic and collegiate matches are concerned. Most of the college stars of previous years have entered the service, and the training commission's athletic directors are making plans to employ them in the formation of crack divisional, regimental and company elevens.

Although many former college stars who played last season in the uniforms of the various naval station elevens have been transferred to active sea service, athletic directors are confident that "ac teams" will be even better than a year ago.

To assist in the campaign which the United States department of labor is conducting to train workers for service in war industries the Chicago board of education has donated a vacant school building and voted \$10,000 for preliminary expense in equipping it. Leading manufacturers of the city are installing training machines and experts in production from their factories will outline the policies subject to the control of the board of education under the general supervision of the training and dilution service of the department of labor.

FIGURES SHOW WHAT YOUR DOLLARS WILL DO

What a Liberty Bond Will Buy for My Boy "Over There."

Suppose you have a son with the American expeditionary forces, and suppose you are a steady buyer of Liberty Loan bonds. Did you ever ask yourself what "your boy" gets out of it, when you lay down a new \$100 bill and say: "I want another hundred-dollar Liberty Bond?" Here are some facts and figures officially made up by the war department:

Your one hundred dollar Liberty Bond will buy your boy one outfit of clothing and sleeping gear, amounting to \$91.03. The change is \$8.97 and that is just enough to give him his "cents" for 100 days.

This war is now in its fifth year—has been running on about 1,500 days. The nineteen and a half days' board left for the boy out of your hundred-dollar Liberty Bond wouldn't amount to much if the fighting should go on a few years more! That \$91.03 outfit would be pretty well used up at the end of a few months of campaigning.

Your hundred dollar war bond shows the best possible disposition on your part, but unless you buy more than one, somebody else has to put up money to keep your boy's hungry stomachs filled with bacon and fighting food.

That illustrates in a simple way the urgent necessity for liberality in buying Fourth Liberty Bonds. What you gave the government on the first, second and third loans has been used up long ago. Your boy is "over there" risking his life and all that he has every minute of the day. Surely it is "up to you" to do absolutely all you can to keep that boy fed and clothed and cared for.

But one point was overlooked in figuring the proceeds of the hundred dollar war bond. It bought the boy an outfit of clothes and 19 days' board, but it didn't buy him a gun nor a trench knife—nor even a revolver, or a hand grenade. Worse than all that, the hundred dollars didn't cover knife, fork or spoon; nor did it give the boy a pick and shovel for trenching when the porche fire gets too hot. Somebody else had to buy another bond to supply those things and give your boy the ammunition he needs for offense and defense.

Look at a few more figures: When your boy goes over the top there must be a nice baggage load down to protect him. Each 75-millimeter shell that is fired costs \$13. Each 6-inch shell costs \$20. The 12-inch high explosive shell loaded costs about \$270. The 16-inch shell loaded with TNT costs about \$1,000, and the smokeless powder to fire it costs \$325 more. The gun it is fired from sets the government back \$175,000. That is not all; the wear and tear on big caliber guns is terrible, so that the life of the tube is very brief.

All these things point clearly to the mistake people make when they say: "Oh, I have bought several war bonds. I think I have done my share." That is miles from the truth. You have not done your share as long as there is a dollar of your capital or income that you don't absolutely have to have to keep life in your body. All the rest ought to be spent for Fourth Liberty Bonds.

PLEA BY GOLD STAR MOTHER

Tells Chicago Women Why Everyone Should Buy Bonds to Back Boys.

By MRS. JAMES C. ELY of Chicago Gold Star Mother.
It would be hard for me to express more earnestly an appeal for the fourth Liberty loan than the message sent to us from our son shortly before his death when he said: "It is an investment—not a loss—when a man dies for his country."

Our boys are dying for their country—can there be too great an investment for those of us who have only money to give?

WHAT YOUR LIBERTY BOND BUYS

What is to be done with all the money that is being asked for on the Fighting Fourth Liberty Loan? Pay for battleships, submarines, and a thousand other things to be used by our boys on the land, on the sea, in the air and under the sea. To complete a single battleship now under construction requires \$23,075,000, a battle cruiser takes \$24,900,000. A scout cruiser takes \$7,220,000, and a destroyer \$1,500,000. A coast submarine costs \$530,000 and a seagoing submarine \$1,430,000.

For artillery, automatic rifles, and small arms, and for ammunition for them, we have spent \$3,700,000,000. Every Liberty Loan subscriber helps to arm our soldiers.

More than 120,000,000 has been spent just for staple supplies for our army, such as flour, bacon, rice, etc. Every subscriber to the Liberty Loan helps feed our soldiers.

Can Now Eat and Sleep in Comfort.

If troubled with indigestion or sleeplessness you should read what Miss Agnes Turner, Chicago, Ill., has to say: Overwork, irregular meals and carelessness regarding the ordinary rules of health gradually undermined it until last fall I became a wreck of my former self. I suffered from continual headache, was unable to digest my food, which seemed to lay as a dead weight on my stomach. I was very constipated and my complexion became dark, yellow and muddy as I felt. Sleeplessness was added to my misery, and I would awake as tired as when I went to sleep. I heard of Chamberlain's Tablets and found such relief after taking them that I kept up the treatment for nearly two months. They cleaned my stomach, invigorated my system, and since that time I can eat and sleep in comfort. I am today entirely well."—Adv.

Default having been made in the condition of a certain mortgage bearing date the 29th day of January, 1916, made and executed by Amos W. Keeney and Lucy E. Keeney of the City of Lansing, County of Ingham and State of Michigan, to Nina M. Fry of the City of Lansing, county of Ingham and State of Michigan, and recorded in the office of the Register of Deeds, for Crawford County, State of Michigan, in Liber 1 of mortgages on pages 182 and 183, on the 8th day of February, 1916, and the mortgage tax thereon paid, upon which mortgage there is claimed to be due at the date of this notice, the sum of Ten Hundred Ninety-three dollars and Thirty-three cents (\$1093.33), principal and interest, and no suit or proceeding at law or in chancery having been instituted to recover the moneys now due and owing on said mortgage or any part thereof the power of sale in said mortgage contained has become operative.

Now therefore, Notice is hereby given that by virtue of the power of sale in said mortgage contained, and of the statute in such case made and provided, said mortgage will be foreclosed by sale of the premises therein described, at public auction to the highest bidder, at the south main entrance to the County Court house in the Village of Grayling, County of Crawford and State of Michigan (that being the place where the Circuit court for the County of Crawford is held) on the 22nd day of November, A. D. 1918, at 1:00 o'clock in the afternoon of said date, to satisfy the amount due and owing on said mortgage together with attorney fees and all other costs, charges and expenses allowed by law.

Said premises are described as follows, to wit:

All that certain piece of land situated in the Township of Beaver Creek, County of Crawford and State of Michigan, and described as the North one-half (1/2) of the Northeast one-fourth (1/4) and the North one-half (1/4) of the Northwest one-fourth (1/4) of Section twenty-two (22), Township twenty-five (25) north, Range three (3) west. Dated August 20, 1918.

Nina M. Fry, Mortgagee.

Catarrhal Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever; Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give ONE HUNDRED DOLLARS for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Sincere Gratitude.

Mrs. William Bell, Logansport, Ind., writes: "I deem it my duty to express my gratitude for the 'good' Chamberlain's Cough and Diarrhoea Remedy did me, when I had a severe attack of diarrhoea three years ago. It was the only medicine that relieved me."

INTERESTING LETTER FROM SAM RASMUSSEN.

Camp Dodge, Iowa.
Oct. 3, 1918.

Dear sister:—

I recieved a letter from you a few days ago, and was sure very glad to hear from you. Well everything is all upset down here. Several of the men have been transferred to different camps and places, where they could be used best. You know the men have been put in various classes, such as A, B, C and D. All class D men have been sent home. I am in class A, and I don't know what they will do with me yet. But all class A men are fit for overseas work. And B and C classes are to be used in this country. The only thing they can do with me if they send me over to France is to put me in doing Government work in some shop, as I can not handle a gun on account of my arm. Well anyway I think we will stay here for a while, until they get different orders.

Everything is fine these days, we're drilling a little every day, and it is much easier for us now, then it was at first. I am feeling pretty good, but I have a little cold. There are quite a number of the boys that have been taken to the base hospital on account of not feeling very good. You know that the Spanish Influenza has been spreading around thru some of the camps, and they are afraid of it coming in here, so we have to be very careful, and keep every thing clean, ourselves also.

We have to take our beds out every morning to be aired out. I don't know if there are any cases in this camp. Some of the fellows said there was, but I am not sure. Well Elvira, mother asked me if I was insured. I have been insured for over a month now. I am insured for 10,000 dollars and had it signed to mother and father so in case anything happened to me from now until the war is over, they would receive 10,000 dollars and if I get hurt, so I cannot work the government gives me \$54 a month as long as I need it. So that isn't bad. They take about 7 dollars out of my pay every month. I have not gotten paid yet, so don't know for sure just what they take out.

I will now tell you where I was last Sunday. I was in Des Moines and went out to see the Danish school and church. It sure is one fine school, and the church is a dandy, but they are not through with it yet. They have all the inside to fix before it is finished. I was also in talking with the minister and he was very nice. He was telling me all about the boys and girls from Grayling that had gone to school there and showed me their pictures. I also seen Elsie Erickson up at the school. She was very much surprised to see me way down here. She is working in the Danish Old Peoples' home. They all asked me to come up again when I came to town, but I guess I want to be going to town for some time again.

We are all under quarantine now, and can not leave our barracks until

further notice.

How is father getting along? You said in your last letter, he was not feeling very good. Hope he is well and all the rest of you too. Tell father I have not written to his brother yet; he just lives 200 miles from here. If I can get a chance to go to visit him, I sure am going too. Well Elvira, I can not think of any more to write now. So will close. With love to all. I am sending a picture, I had taken in Des Moines Sunday.

Your brother, Sam.

FREDERIC NEWS.

(To late for last week.)
Mr. Layman and wife are moving to Cadillac this week.
Mrs. Chas. Kelly is again visiting Frederic.

Beginning Monday our mail arrives at 4 p. m. instead of 6:30 a. m. We could stand bi-weekly mail service if it would help to black the Kaiser's eye.

Russel Lewis who was inducted into the Student's Army training corps at Ann Arbor last week Sunday at home. He returned to the University Sunday night in company with Emerson Bates and Carlton Meistrup of Grayling. The boys will commence their work for Uncle Sam, Oct. 1st.

The volunteer purchasing of Liberty Loan bonds reached the highest degree in our township last Saturday under the efficient supervision of the chairman, Mrs. J. Kelley. A tent decorated with red, white and blue, and Liberty posters, was pitched on main street which served as a booth for the committees that did the selling. The town committees were composed of Mrs. Kelley, Mrs. Callahan, Mrs. Emmett Lewis, Mrs. Tobin, Mrs. Abraham and Mae McDermid, Mrs. Albert Lewis and Mrs. Hunter visited Harvey's camp, while Miss Paris, Mrs. Henry and Mrs. Kalahar assisted at the school houses in Maple Forest. Miss Libbie Malco assisted Miss Mary Olson at Deward. The total day's purchasing amounted to \$5,450.

While returning home from the banquet at Grayling Friday night, H. Abraham had the misfortune of hurting his arm severely while cranking the car.

A large cart load of stock was picked up in Maple Forest and shipped from here Saturday.

Influenza.

The first serious epidemic of Influenza, or Grip, came from Russia. There is now an epidemic threatened from Spain. It is commonly known by a general sense of illness; pain or soreness over the entire system, or in the head, back or limbs, sore throat, hoarseness, sneezing and running from the nose. These conditions are controlled and broken up by the use of Dr. Humphreys' "Seventy-seven."

HUNKA TIN.

(With due apologies to Kipling)
(Published thru the courtesy of Capt. Hardin Sweeney of France.)

You may talk about your voitures
As you're sitting round your quarters,
But when it comes to bringing blessings
in.
Take a little tip from me,
Let those heavy motors be;
Pin your faith in Henry Ford's old
Hunka Tin.

I've been around this war
Six, seven months or more.
It doesn't matter when it did begin,
And I've seen a car or so.
But the best one that I know
Is that ridiculed old junk heap
Hunka Tin.
Give her essence and de l'eau
Frank her up and let her go.
You back-firin', spark-plug foulin'
Hunka Tin.

The paint is not so good,
And no doubt you'll find the hood
Will rattle like a boiler shop enroute;
The cooler's sure to boil.
And perhaps she'll leaken oil,
And oftentimes the horn declines to
toot.

But when the night is black
And there's blessings to take back,
And they hardly give you time to take
a smoke,
It's mighty good to feel,
As you're sitting at the wheel,
She'll be running when the bigger cars
are broke.
Oh, it's Din, Din, Din.
If it happens there's a ditch you've
skidded in,
Don't be worried, but just shout
Fill some Poilu pulls you out
And you're glad she's not so heavy,
Hunka Tin.

After all the wars are past
And we're taken home at last
To our reward of which the preacher
sings,
When those Ukelele sharks
Will be strumming golden harps
And the Avions all have regular
wings,
When the Kaiser is in Hell
With the furnace drawing well,
Paying for his million different kinds
of sin,
If they're running short of coal
Show me how to reach the hole,
And I'll cast a few loads down with
Hunka Tin.
Yes, Tin, Tin, Tin,
You exasperating puzzle, Hunka Tin.
I've abused you and I've flayed you,
But, by Henry Ford that made you,
You are better than the Big Unna
Hunka Tin.

Bronchial Trouble.

Mrs. A. E. Sidenberder, Rockfield Ind., states: "For an attack of bronchial trouble which usually assails me in the spring I find Chamberlain's Cough Remedy the only thing that gives me relief. After using it for a few days all signs of bronchial trouble disappear."

Obituary.

Flora Howse, who passed away at the home of her daughter, Mrs. Flora Malco, Monday, Sept. 16, was born on the Atlantic Ocean, while her parents were enroute from Scotland to Canada. In due time she was united in marriage to Barnum B. Howse, residing in Oakland County, Michigan, for a short time when they moved to Crawford co. The deceased has been a resident of Maple Forest township for the past 40 years. Her husband, Barnum B. Howse enlisted as a private in Company E, 7th Michigan Cavalry in 1862, and was wounded in the Battle of the Wilderness, May 4, 1864 and died soon after in a military hospital.

She had lived with her son Archie Howse of Maple Forest township until about eight years ago, and since that time has made her home with her daughter, Mrs. Sarah J. Malco. The deceased was the mother of six children, five of whom survive her. They are John of Wayne, Mich., Geo. of Lakeview, Mich., and Mrs. Sarah J. Malco, Conrad and Archie Howse, all of Maple Forest Township. 17 grand children and 26 great grand children survive, also.

The funeral services were held at the Malco home on Thursday afternoon Sept. 19, and a large congregation of old friends and acquaintances were in attendance. Rev. Terhune conducted the services and delivered a very appropriate and impressive ceremony. He was assisted by the Frederic choir. Fourteen W. R. C. ladies were in attendance, twelve from Grayling being present at the last rites. There were many beautiful floral offerings from the Corps and friends, that showed the high esteem in which the elderly lady was held. Mrs. Malco was a woman of excellent character and was loved and respected by all who knew her.

HOW EPIDEMICS START.

It might seem that epidemics of various diseases were born full-fledged over night. Disease epidemics, however, usually have their source in one or a few isolated cases. Simply because the danger of contagion is not recognized or guarded against, it spreads rapidly.

Many diseases of this character are contracted from germs which enter the nose or mouth. Danger of infection and the further transmitting of the diseases can largely be prevented by the use of an antiseptic gargle or nose spray made by dissolving two tablespoonfuls of 20 Mule Team powdered boric in a pint of hot water. An excellent gargle for sore throat, often the first symptom of approaching illness, is made by dissolving one teaspoonful each of salt and Boric in a pint of hot water.

ANNOYING KIDNEY ILLS.

Make Life Miserable for Many Grayling People.

There's nothing more annoying than kidney weakness or inability to properly control the kidney secretions. Night and day alike, the sufferer is tormented and that with the burning and scalding, the attendant backache, headache and dizziness, life is indeed, a burden. Doan's Kidney Pills have given peace and comfort to many Grayling people. Profit by this Grayling resident's experience.

Peter Wm. Christenson, Chestnut St., says: "I have used Doan's Kidney Pills at different times in the past, getting them at Lewis' Drug Store, and they have always proved of great benefit to me. When my back has been weak or lame and the kidney secretions have been too frequent in passage, I have used Doan's Kidney Pills. They have always fixed me up in good shape."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Christenson had. Foster-McLure Co., Mfgs., Buffalo, N. Y.

Card of Thanks.

We the undersigned wish to extend our thanks and appreciation to our neighbors and friends for their kindness at the time of the death of our mother, Mrs. Flora Howse, and especially the W. R. C. ladies.

Worth Remembering.

We speak of our human relationship as "ties," but often we make them fetters by our unreasonable demands. "Love the Lord" is sweet, but "love the Lord" may become a fretting bond.—E. V. Loring.

Kill Germs and Save Human Life

The menace of militarism, the horrors of war and the toll of death taken in all frightful accidents is as nothing compared to the danger of unseen deadly germs.

Even in war itself the toll of human life taken outright by the whizzing bullet, the bursting shrapnel, or the piercing steel is less than that caused by the unseen deadly germs that attack the wounded and the well alike.

Human life will be lengthened and human happiness increased when we learn better to guard ourselves against the danger of the ever present germs of disease.

Powdered boric is one of Nature's most wonderful gifts to man, for it enables us, through antiseptics, to ward off the danger of infection.

Owing to its wonderful antiseptic properties it cannot be too highly recommended for liberal use in the care of the person wherever and whenever exposed to the germs of disease.

Pure powdered boric may be used with absolute freedom and safety in all the natural cavities of the body. To realize how healing it is, yet how safe, we have but to recall that the physician almost always prescribes it as the principal ingredient of an eye water.

The manufacture of powdered boric has been brought to such a high degree of efficiency by one concern that it we always remember to specify "20 Mule Team Powdered Boric" we know that we have the real article in full strength.

On every package of 20 Mule Team Powdered Boric will be found directions for its multitude of uses and the expense is so little that no one should ever be without it.

A solution of 20 Mule Team Powdered Boric in water makes an absolute and positive antiseptic for all personal use. It is excellent for a shampoo, for it kills the germ which makes the dandruff that spoils the lustre of the hair and causes it to fall out and cease to grow.

It should be used as a mouth wash on account of its antiseptic qualities whenever there is the slightest danger of having been exposed by being brought in contact with persons suffering with colds, sore throats, etc.

To overcome the unpleasant effort consequent upon excessive perspiration the use of 20 Mule Team Powdered Boric will give great satisfaction, making everything sweet and clean and removing any odor that may have occurred.

A hot foot bath with a liberal quantity of 20 Mule Team Powdered Boric will make the feet feel ten years younger.

For the baby a liberal dusting with 20 Mule Team Powdered Boric not only assures freedom from chafing but helps to maintain an antiseptically clean condition on the little body.

To any out or abrasion 20 Mule Team Powdered Boric should be freely applied.

20 Mule Team Powdered Boric is a foe to germ life.

It should be on the dressing table of every dainty woman and liberally used in every household where health is prized.

Authorized representative will come call at your home and make arrangements for you to obtain FREE, a full size package of 20 Mule Team Powdered Boric from any of the following druggists:

The United States Food Administration has called a meeting of all the bakers of the State to be held October 15 and 16 in the Council chamber, City hall, Lansing, Mich. Our local baker Mr. Thomas Cassidy expects to be in attendance at the meeting.

Last Saturday there was a large gathering of Grangers at the G. A. R. hall, who came to attend the dedication of the Grange service flag. In all there were about 67 people from different parts of the County, who came in early in the morning to be in attendance at the affair. Everyone brought baskets of edibles and at noon time this was spread on the large tables at the G. A. R. hall and every one did ample justice to the noon-day meal. In the afternoon a program was rendered in which young America was much in evidence, different exercises being given. After the program W. L. Taylor, of Shelby, Mich., Deputy master of Michigan State Grange gave an excellent address. There were also talks by others present. The Grange service flag contains seven stars, denoting that seven of its members are doing their bit towards helping win the war. It was an occasion that will be long remembered by those present, both young and old.

It has been the custom for the past two or three years of the Parent-Teachers Assn. to hold a public reception for the school teachers, in order that parents and citizens might become acquainted with them. Accordingly an invitation was extended to everyone to attend the reception Tuesday evening at the High school gymnasium. About two hundred people responded and a general good time was enjoyed. The Gymnasium had been very artistically decorated, by the Committee in charge, with autumn leaves, wicker furniture and electric lights which gave the place a homelike appearance. Mr. and Mrs. Otterbein with the other teachers were in the receiving line. Mr. Frank Anstett gave two splendid selections on the violin which were much appreciated by every one present. Mrs. Oscar Hanson with Miss Bessie Smith played a piano duet that brought a hearty applause. Throughout the entire evening the Kathryn Clark Orchestra played and to them great credit for the success of the occasion is given. Their music was excellent and the Committee in charge wish to thank them for donating the music. The committee wishes also to thank all others who served in any way to make the affair a success.

The members of the Knights of Columbus order in Grayling perfected plans for a local organization at a meeting held at St. Mary's parsonage last Sunday evening. Fr. J. J. Riess presided at the meeting and officers were elected and are as follows: Fr. Riess, president; George McPeak, vice-president; J. E. Crowley, secretary and Thomas Cassidy, treasurer. A board of Trustees was elected consisting of Alex Lagrow, chairman, William F. Brennan and Stephan Karpus. A committee was also appointed to draw up a Constitution and By-laws. Fr. Riess was named the chairman for this and asked the assistance of Messrs. Brennan and McPeak. Many of the members here belong to orders in Bay City, Detroit or Cheboygan, and no doubt all will be eager to transfer to the Grayling Council. The members have already rented the rooms over the George Burke garage for a club, where social meetings will be held and where the order will also hold their business meetings. There are thirty members in Grayling and several other gentlemen of St. Mary's parish are contemplating joining. The Ladies' societies of the parish will also have the privilege of using the rooms for their different social affairs. The officers of the Altar Society met at the parsonage also Sunday evening to make plans for furnishing the club rooms with dishes, etc.

DIED IN THE SERVICE OF HIS COUNTRY.

Herbert H. Feldhauser Dies of Pneumonia at Camp Custer.

The very sad news was received here early Monday morning of the death of Private Herbert H. Feldhauser at Camp Custer. Last week Wednesday the Feldhauser family received a message that Herbert was seriously ill with pneumonia. Mrs. Feldhauser left on the midnight train Wednesday for Battle Creek for the bedside of her son, remaining there until his death, which occurred Sunday evening at 8:00 o'clock. The young man had only been ill for about ten days, having first contracted Spanish influenza, that is so prevalent in the army camps, and this developed into pneumonia.

The deceased was 29 years old and up until the time when he was sent to Camp Custer had always lived at home with his parents, Mr. and Mrs. Henry Feldhauser, who reside in the eastern end of Grayling township. He left with the contingent that departed from Grayling on the evening of July 24th and was a member of Company G, of the 78th Infantry. He was home on a short furlough Labor day visiting his parents and friends.

Private Feldhauser is the first Grayling boy to give up his life while in the service, and altho his death was not caused by wounds on the battle field, yet he died for his Country. The remains arrived in Grayling Wednesday and were taken to the home of Frank M. Freeland, to await burial. The funeral services are being held this afternoon at 2:00 o'clock at the Oddfellow's temple, and the business places and schools are closed in honor of Private Feldhauser during the funeral.

The Feldhauser family have the sympathy of the community in their sad bereavement.

"We'll All Go Broke If We Have To—But There's No One Busted Yet."

By WILLIAM HERSCHELL.
When I hear some folks complain "About the burdens they must bear Just to keep our soldiers fighting In the trenches 'over there.' Then I want to show a picture. One I saw the other day. Of a little Belgian young'un An' her granny, old an' gray. In each face was tears and terror, An' I pledged my all to Freedom, If to give my all I must. Then a new song woke within me, A refrain I can't forget: "We'll all go broke if we haf t'— But there's no one busted yet!"

None of us is facin' hunger. None need fear to seek his bed Lest a demon in a Gotha Hurl a bomb from overhead. Here we go along a-singin'. Only now and then we sigh, An' we never see a soldier Cept our own a-marchin' by. Folks, we'd ought to be so grateful To each fightin' Yankee boy That th' sacrifice of givin' Should be measured as a joy. So let's do our part—full-hearted— Smile and say without regret: "We'll all go broke if we haf t'— But there's no one busted yet!"

Will Strangely Found.
Stranger than fiction is the story told in London of how a missing will was discovered. In one house there was an old bureau which had been handed down as an heirloom for nearly a century. In an air raid this was split down the center, and a secret cabinet revealed. There were found a number of papers, and among them a will which will have an important effect upon the present holders of the property.

UNCLE SAM'S ADVICE ON FLU

U. S. Public Health Service Issues Official Health Bulletin on Influenza.

LATEST WORD ON SUBJECT.

Epidemic Probably Not Spanish in Origin—Germ Still Unknown—People Should Guard Against "Droplet Infection"—Surgeon General Blue Makes Authoritative Statement.

Washington, D. C.—(Special.)—Although King Alfonso of Spain was one of the victims of the influenza epidemic in 1889 and again this summer, Spanish authorities repudiate any claim to influenza as a "Spanish" disease. If the people of this country do not take care, the epidemic will become so widespread throughout the United States that soon we shall hear the disease called "American" influenza.

In response to a request for definite information concerning Spanish influenza, Surgeon General Rupert Blue of the U. S. Public Health Service has authorized the following official interview:

What is Spanish Influenza? Is it something new? Does it come from Spain?

"The disease now occurring in this country and called 'Spanish Influenza' resembles a very contagious kind of 'cold,' accompanied by fever, pains

Coughs and Sneezes Spread Diseases

As Dangerous as Poison Gas Shells

in the head, eyes, ears, back or other parts of the body and a feeling of severe sickness. In most of the cases the symptoms disappear after three or four days, the patient then rapidly recovering. Some of the patients, however, develop pneumonia, or inflammation of the ear, or meningitis, and many of these complicated cases die. Whether this so-called "Spanish" influenza is identical with the epidemic of influenza of earlier years is not yet known.

"Epidemics of influenza have visited this country since 1847. It is interesting to know that this first epidemic was brought here from Valencia, Spain. Since that time there have been numerous epidemics of the disease. In 1889 and 1890 an epidemic of influenza, starting somewhere in the Orient, spread first to Russia and thence over practically the entire civilized world. Three years later there was another flare-up of the disease. Both times the epidemic spread widely over the United States.

"Although the present epidemic is called 'Spanish influenza,' there is no reason to believe that it originated in Spain. Some writers who have studied the question believe that the epidemic came from the Orient and they call attention to the fact that the Germans mention the disease as occurring along the eastern front in the summer and fall of 1917.

How can "Spanish influenza" be recognized?

"There is as yet no certain way in which a single case of 'Spanish influenza' can be recognized. On the other hand, recognition is easy when there is a group of cases. In contrast to the outbreaks of ordinary coughs and colds, which usually occur in the cold months, epidemics of influenza may occur at any season of the year. Thus the present epidemic raged most intensely in Europe in May, June and July. Moreover, in the case of ordinary colds, the general symptoms (fever, pain, depression) are by no means as severe or as sudden in their onset as they are in influenza. Final ly, ordinary colds do not spread through the community so rapidly or so extensively as does influenza.

"In most cases a person taken sick with influenza feels sick rather suddenly. He feels weak, has pains in the eyes, ears, head or back, and may be sore all over. Many patients feel dizzy, some vomit. Most of the patients complain of feeling chilly, and with this comes a fever in which the temperature rises to 100 to 104. In most cases the pulse remains relatively slow.

"In appearance one is struck by the fact that the patient looks sick. His eyes and the inner side of his eyelids may be slightly 'bloodshot,' or 'congested,' as the doctors say. There may be running from the nose, or there may be some cough. These signs of a cold may not be marked, nevertheless the patient looks and feels very sick.

"In addition to the appearance and the symptoms already described 'examination of the patient's blood may aid the physician in recognizing 'Spanish influenza,' for it has been found that in this disease the number of white corpuscles shows little or no increase above the normal. It is possible that the laboratory investigations now being made through the National Research Council and the United States Hygienic Laboratory will furnish a more certain way in which individual cases of this disease can be recognized.

What is the course of the disease? Do people die of it?

"Ordinarily, the fever lasts from three to four days and the patient recovers. But while the proportion of deaths in the present epidemic has generally been low, in some places the

outbreak has been severe and deaths have been numerous. When death occurs it is usually the result of a complication.

What causes the disease and how is it spread?

"Epidemiologists who have studied influenza epidemics in the past have found in many of the cases a very small rod-shaped germ called, after its discoverer, Pfeiffer's bacillus. In other cases of apparently the same kind of disease there were found pneumococci, the germs of lobar pneumonia. Still others have been caused by streptococci, and by others germs with long spines.

"No matter what particular kind of germ causes the epidemic, it is now known that influenza is always spread from person to person, the germs being carried with the air along with the very small droplets of mucus, expelled by coughing or sneezing, forceful talking, and the like by one who already has the germs of the disease. They may also be carried about in the air in the form of dust coming from dried mucus, from coughing and sneezing, or from careless people who spit on the floor and on the sidewalk. As in most other catching diseases, a person who has only a mild attack of the disease himself may give a very severe attack to others.

What should be done by those who catch the disease?

"It is very important that every person who becomes sick with influenza should go home at once and go to bed. This will help keep away dangerous complications and will, at the same time, keep the patient from scattering the disease far and wide. It is highly desirable that no one be allowed to sleep in the same room with the patient. In fact, no one but the nurse should be allowed in the room.

"If there is cough and sputum or running of the eyes and nose, care should be taken that all such discharges are collected on bits of gauze or rag or paper napkins and burned. If the patient complains of fever and headache, he should be given water to drink, a cold compress to the forehead and a light sponge. Only such medicine should be given as is prescribed by the doctor. It is foolish to ask the druggist to prescribe and may be dangerous to take the so-called 'safe, sure and harmless' remedies advertised by patent medicine manufacturers.

"If the patient is so situated that he cannot be attended only by some one who must also look after others in the family, it is advisable that such attendant wear a wrapper, apron or gown over the ordinary house clothes while in the sick room and slip this off when leaving to look after the others.

"Nurses and attendants will do well to guard against breathing in dangerous disease germs by wearing a simple fold of gauze or mask while near the patient.

Will a person who has had influenza before catch the disease again?

"It is well known that an attack of measles or scarlet fever or smallpox usually protects a person against another attack of the same disease. This is not so in the case of 'Spanish influenza.' According to newspaper reports the King of Spain suffered an attack of influenza during the epidemic thirty years ago, and was again stricken during the recent outbreak in Spain.

How can one guard against influenza?

"In guarding against disease of all kinds, it is important that the body be kept strong and able to fight off disease germs. This can be done by having a proper proportion of work, play and rest, by keeping the body well clothed, and by eating sufficient wholesome and properly selected food. In connection with diet, it is well to remember that milk is one of the best all-around foods obtainable for adults as well as children. So far as a disease like influenza is concerned, health authorities everywhere recognize the very close relation between its spread and overcrowded homes. While it is not always possible, especially in times like the present, to avoid such overcrowding, people should consider the health danger and make every effort to reduce the home overcrowding to a minimum. The value of fresh air through open windows cannot be overemphasized.

"When crowding is unavoidable, as in street cars, care should be taken to keep the face so turned as not to inhale directly the air breathed out by another person.

"It is especially important to be sneezed with covering his mouth and nose. It also follows that one should keep out of crowds and stuffy places as much as possible, keep hands, clothes and worksheds well aired, spend some time out of doors each day, and take work if at all practicable. In short, make every possible effort to breathe as much pure air as possible.

"In all health matters follow the advice of your doctor and obey the regulations of your local and state health officers.

"Cover up each cough and sneeze, you can't you spread the germs."

"PUSHING ON"

Lieut. John Philip Sousa has composed a fourth Liberty loan song. The words were written by Guy F. Lee, a Chicago newspaper man. The title is "Pushing On." The words of the last verse and the chorus are:

They scarp with pep and ginger, our men and their allies, On land, in air, And everywhere, They've got the Roche's size, It's up to us to back 'em, until the war is won.

So lend as they fight every day, while Pershing's pushing on.

Chorus: For Pershing's pushing, Pershing's pushing on.

For Pershing's pushing, Pershing's pushing on.

The Hun is on the run, Dig up, we need the "mon."

Shell out, shell out, the Yanks are pushing on.

Every Bond you tuck away Boosts a bit your yearly pay.

BACK THEM WITH THE MONEY THEY MAKE SAFE FOR YOU

CHATEAU THIERRY BOY TALKS

Put the Liberty Loan Over From the Jump, Says Wounded Hero.

By PRIVATE SIGURD ARNVIG, A Chateau Thierry Hero.

[Arnvig gave a leg at Chateau Thierry. He had been in the United States only eighteen months when he volunteered on the outbreak of the war. He is now helping put the loan over in Chicago, on crutches.]

At the Chateau Thierry fight the Yanks were given a position to hold. The French officers in consultation said we were a unit in the strategy—we wouldn't hold absolutely—we might yield temporarily, go back a little, retreat here and there.

Well, we couldn't see the use of not holding a position we were to hold. We didn't want to go back when we were supposed to go forward. The Stars and Stripes look best at the head of the parade, anyway. And so the others had to do the falling back. We went right ahead—strategy or no strategy—and we took the objective. We gave all we had; we put 100 per cent of our best into it. We stopped the Germans right away—all at once.

Now I have an idea that the way to put over Fourth Liberty Loan drives is just that. If we have a six billion dollar loan to put over in a few days there is just one thing to do: Put it over from the jump. What's the good of strategic stalling and postponing? Let's go to the objective without stopping for breath. Do it as we won out at Chateau Thierry. Hit hard, keep going, and never slow up until the objective is attained.

DON'T DISAPPOINT THE BOYS

Pershing Troops Want to Beat the Germans and You Can Help.

A disappointed boy is one of the most tragic things there is.

When a boy wants something, he wants it desperately, with every nerve of his brain and body.

And if he fails to get it he is overwhelmed, hardly able to go on living. THERE IS JUST ONE THING PERSHING'S BOYS WANT.

You know what that is? To beat the Germans.

And they know it can't be done without all the money the people at home can spare.

They know, too, that the hour has struck for us to give that money.

They will learn right away whether the Fourth Liberty Loan is being fully subscribed or not.

They will be sitting there in their trenches, the dugouts, or the "X" huts waiting to find out.

Can't you imagine the cheers when they hear the loan has "gone over?"

Can you imagine them disappointed?

ARE WE GOING TO DISAPPOINT THEM?

NOBODY EVER DOES ENOUGH.

This officer was at home with a shattered arm and several other wounds. Work of the most arduous kind had won him seven "brisques," or wound stripes. He heard that the offensive had been resumed against the Germans and he put on his "kit" to return to his company.

"But your arm is broken!" said his father.

"No matter. I have a perfectly good plaster cast on it."

"You have done enough, anyway. Let the rest fight it out."

"Nobody ever does enough. Good-by."

That applies to every American who is asked to lend to the United States on fourth Liberty bonds. Buy more.

HELPING THE ENEMY

LIBERTY CHORUSES BIG AID

Americanization of the Foreign-Born Helps Boost the Fourth Loan.

There is a marked difference in the third and fourth Liberty loans in the amalgamation of foreign-born citizens with those of native birth.

"Since the third loan we have come to know each other better and to appreciate the contributions each makes toward the new democracy which is the outgrowth of the war," said Mrs. Constantine Howard of the Foreign Language division.

The Liberty chorus of more than 100 voices—representing 32 nationalities—organized under her leadership, is one of the great features of the present campaign.

"In the previous campaigns the foreign-born workers limited their efforts largely to awakening an interest in bond investment among their own nationalities. Now," continued Mrs. Howard, "they are selling the bonds to us, but owing to a difference in organization the amounts subscribed to the fourth loan by the various nationalities will not average so much in reality as they have done heretofore."

Their enthusiasm has awakened an understanding of the real purpose of the war both among their own peoples and among native-born Americans. Those who came here seeking freedom from oppression have taught us by their enthusiasm to value ever more highly that liberty of which we once sung perhaps more with our lips than our hearts.

"The ever increasing demands for the appearance of the Liberty choruses in Chicago and throughout the district at patriotic events is the best proof of the responsive chord which our foreign-born peoples have evoked in American consciousness."

"Through the Liberty loan and the need for universal sacrifice for a common cause has come a wealth of civic betterment, as well as the necessary funds to carry on the fight for world-wide liberty. We are being welded into a united peoples through sacrifice. The gold stars which dot the service flags all over the nation—the lending of every available dollar has united us. "What is your community doing to stimulate this social consciousness into active patriotic expression? If you are allowing a line to remain between foreign-born and native Americans the true message of the Liberty loan is not reaching the inner consciousness of your community."

"This work of Americanization will go on when the immediate need for raising funds to fight the war to a finish has passed. Nothing can be more inspiring or hopeful for a correlated community life than the entire obliteration of racial differences which had its beginning during the third loan."

BUDGET YOUR BOND BUYING

By MISS GRACE DIXON, Federal Reserve Director for Women Seventh District.

Budget your bonds. Include payments on Fourth Liberty Loan bonds with the meat and groceries—as essentials of everyday life. Surely Government insurance is as necessary an investment as fire or life insurance, which are included in the regular expenses of the household.

If you have never tried a budget start NOW. Sit down and figure what must be set aside for actual necessities, for recreation, charity, or as a sinking fund. Ask yourself whether the amount is adequate.

Then inventory the amount of bonds you are now carrying. Ask yourself whether that amount is adequate in comparison with your table or the sum you spend for amusement.

See if you cannot increase your subscription before the close of the Fourth Liberty Loan campaign. A first payment now—even if made at a sacrifice—will give you courage to meet future payments.

Place your bond payments at the beginning—not the end—of your budget. They are the greatest investment in the world for you, yourself, for your future success and your peace of mind when "the boys come home."

"YOU LEND AS THEY FIGHT." "MR. BUSINESS MAN, YOU'VE NOT BEEN HIT UNTIL YOU'VE LOST AN ARM OR A LEG—BUY ALL THE BONDS YOU CAN."

"THAT'S YOUR SHARE IN LIBERTY BONDS? ALL YOU HAVE IN THE BANK AND ALL YOU CAN SAVE."

"WHAT KIND OF A FIGHTER ARE YOU? ANSWER, 'HOW MANY BONDS HAVE YOU BOUGHT?'"

Avalanche Printing will increase your business standing. Try it.
